Petition to Save the Endangered African and Asian Elephant

We, the undersigned, are grateful to the Chinese government for its policies and laws that make the use and sale of poached ivory illegal. Elephants in Africa are being killed now at the rate of 100 a day. At that rate, elephants will go extinct in a very few years. We wish to join with kind hearted Chinese in an effort to guarantee that these laws are enforced so that magnificent elephants will survive well into the future for all people to enjoy.
